

Alex Rivera

Robotics Software Intern

alex@example.com | github.com/example | alex.example.com

Experience

Robotics Software Engineer | Northstar Robotics Lab

2024-04 - 2025-01

Remote

- Built Java control software for a competition rover and documented feedback loops.
- Added telemetry and field-test notes to support repeatable rover tuning.

Projects

Computer Vision Developer | Warehouse Navigation Prototype

2023-09 - 2024-03

Open source lab

- Implemented camera-based odometry for a warehouse navigation prototype.

Tools Developer | Evidence Ledger

2024-06 - Present

Local project

- Created a local validation tool that links draft bullets to reviewed claims.

Education

B.S. in Computer Engineering | Northstar Institute of Technology

2022-09 - 2026-06

Portland, Oregon

Skills

Java, Python, Control systems, Computer vision, Git
